General Business. –

New Club Stamp: Rick Kent reported he has organized a new club stamp to clarify club name – there have been issues with getting bikes registered with the RMS due to some lack of clarity in the old stamp.

Rally Planning – Morning Tea: Cudal \$7.00 Lunch at Goolagong. \$16 – David Scott and Kevin Daniels to follow up.

AJS Rally at Oberon: Mark Turnbull raised concerns that this has no recognition anywhere that this is the CEMCC rally or a joint rally with the AJS club. There has been little if any consultation over this change, particularly where Orange has regularly supported this rally with quite a few members every year.

Motion: That the secretary write a letter expressing our concern to the Editor of the Clatter.
Moved: Mark Turnbull, 2nd Rick Kent

Meeting closed : 8.20pm

Next Meeting: Monday 7th October, 8.00 Gladstone Meeting Room

Hi Guys,

> Please send all your monthly minutes and Committee minutes to Ian Richardson each month for posting on the club website. Please check which recent ones are missing and update accordingly, as we need to have a continuing record available for all to view.

> It is not necessary to have the minutes published in the Clatter as these are usually read out at each of the monthly meetings. This will leave more space in the Magazine for articles and help to keep the overall cost of the Clatter to a minimum. As you know we are trying to minimise costs in all areas and the Clatter is the most expensive singular item in our budget.

> If we can make the budget work then we can allocate better savings and benefits to all the members.

> Your assistance will be appreciated.....David

Hi David

I am not sure you're right on this one. Our branch members for the most part like the hard copy of the minutes, and believe it or not, read the other club minutes to keep in touch. Many would not I think use the club website.

I think the Clatter is an essential part of the " glue" of this organisation and I would tread carefully.

At least check with Branch members for feedback.

Regards

David Scott
