

## COVID Legislation in NSW

The health orders that govern what we can and can't do during the COVID pandemic in NSW are encoded in legislation. A link to this legislation is provided below. Follow further links to "Delta Outbreak Restrictions. The "Reasonable Excuses" for being out of the house are included in one of the schedules at the end of the legislation. At the time of writing it was Schedule 2 but this has changed occasionally.

Its up to each person to be familiar with the requirements of the legislation before leaving home for any reason.
